GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

Does it work for fog?

Is it accurate?

Avoid fire accident

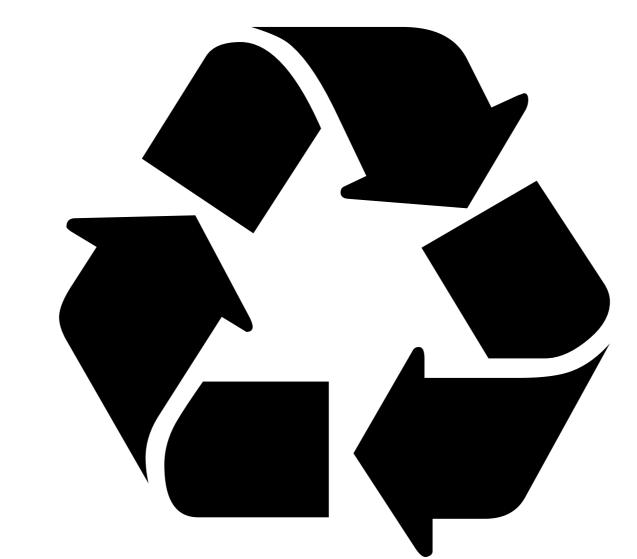

Controlling toxic gases

Boundary range

What do they think and feel?

What do they say & do?

Monitoring saturating levels

Maintain the quality

What do they hear?

What do they see?

Monitoring statistical values

To prevent breathing problems

Safety precautions

Proper safety

Simple mobilephone interface

Pain

Measures toxic gases in low concentrations

Gain

To prevent high risk of gas explosions & other health disorders
